

Recycle Extras at No Additional Charge

With the expanded list of items that you can now add to your blue recycling cart, you may find your cart overflowing more often than not if you are a dedicated recycler. If you don't already have the 96-gallon size cart, you may request the larger size by calling Allied Waste at (206) 682-9735, or visiting www.AlliedWasteKent.com. If current container size is adequate to meet your needs most of the time, you can place those occasional extra recyclables at your curb in the following ways:

- A great way to use your old garbage cans
- Pack in paper bags
- Place in 3'x3' boxes.

There is no charge for those extra recyclables. Just make sure all extra containers weigh less than 60 pounds each and are **clearly labeled "RECYCLING" large enough** so the driver can see it from the truck.

Don't have an extra can, or prefer not to use bags or boxes? You can choose to rent an additional recycling cart. The rental fee of the additional cart is \$2.75 per month.
